

**Kama Precision Bandsaws**  
Welcome to the world of accuracy

## AD 105S 4"Capacity Portable Benchtop KAMA Bandsaw ▣▪

The AD 150S Kama bandsaw is a little bench top workhorse capable of any cutting job up to 4" round or square at 90°. Like its big brother, the EV 996 bandsaw, the heart of this machine is a heavy duty, precision machined aluminum casting onto which is mounted a high power motor and double gear reduction drive train, all working together to provide power and vibration free precision from the bandsaw blade to the cutting point. This bandsaw is much more than a portable bandsaw mounted on a base. Its accuracy is unrivaled by any small bandsaw, regardless of price. There are hundreds and hundreds of these great little saws in small shops and construction companies all over the U.S., Canada and Mexico. They are just as accurate as the bigger EV 996. The quality of construction and cutting accuracy are identical to the EV 996 Kama Bandsaw.

## Features of the AD 105S KAMA Bandsaw

This photo shows the AD105S Kama bandsaw mounted onto the material rack at Ledford Steel in Winchester, Kentucky. Ledford makes hundreds of cuts a week on this rack, shipping material to metal fabricators all over the world.

For more information or to order from Ledford, feel free to call Eddy Ledford at 1-859-745-2650 or visit <http://www.metalsdepot.com/KAMA.phtml>.

CUTTING CAPACITIES			
			
90°	4.00	-	4.00x4.00
45°	2.25	-	2.25x2.50

**Size:** 16" L X 13" W X 12" H

**Blade Size:**

3' 8 7/8" X 1/2" X 0.025 Bi Metal Blade

**Blade Speeds:**

0-330 Feet Per Minute, Variable Speed

**Weight:** 42 pounds

**Available Voltage:** 115 V

Please note: although you can use a Portaband blade with this machine, a standard Portaband blade thickness is only .020" The AD105S is designed to use a blade with .025" thickness which give much greater beam strength for square cuts and accurate mitering. These blades are widely available from good industrial blade suppliers or you can order from us. The AD105S comes standard with an 8-12 tooth variable pitch bi-metal blade and workstop.

	Price	Shipping
KAMA AD 105S Portable Benchtop Bandsaw	\$ 999.95	\$ 40.00

Available blades:

	Price
6-10 Tooth Variable Pitch Bi-Metal Blade	\$ 18.95
